Leagues & Displays #moveandlearn

Are you ready to start celebrating and sharing your 'Move & Learn' successes with your school?

Some Tagtiv8 teachers have created displays for their children and families.

Here are some ideas and resources to help you get started.

Print them as a PDF.

Better still, email us - hello@tagtiv8.com - and we will share an editable version.

Let's get moving & learning!

Getting Started

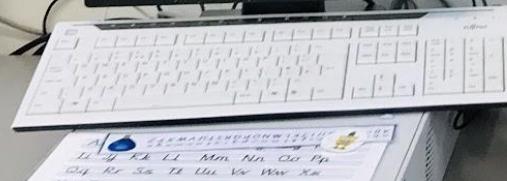

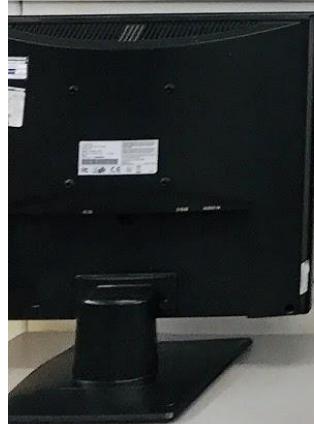

Contents

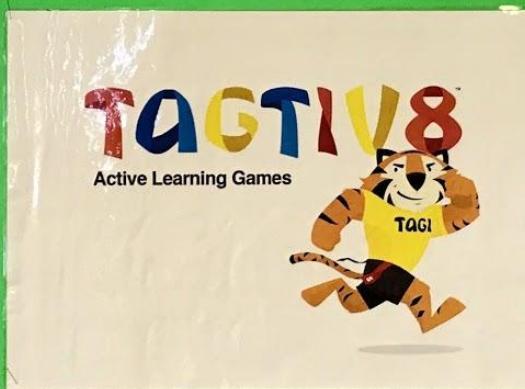

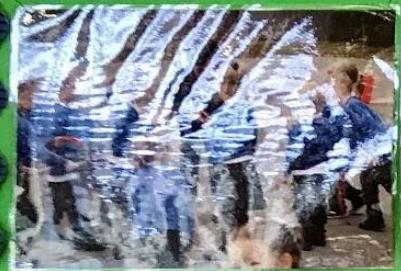

Focus	Slides
Getting Started - with Tagi &Tiva	2
Contents	3
Example displays from schools	4 - 6
Practical Ideas	7
League Tables	8 - 12
Speech Bubbles - Examples & Blanks	13 - 18
Tagi & Tiva Characters & Certificates	19 - 39
Mini Health Posters	40 - 44
Community & Contact	45 - 46

What can you tell me about these numbers?

Ta^gtin*N*8

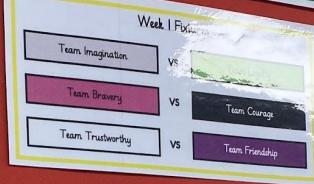

How many words can you make with these letters?

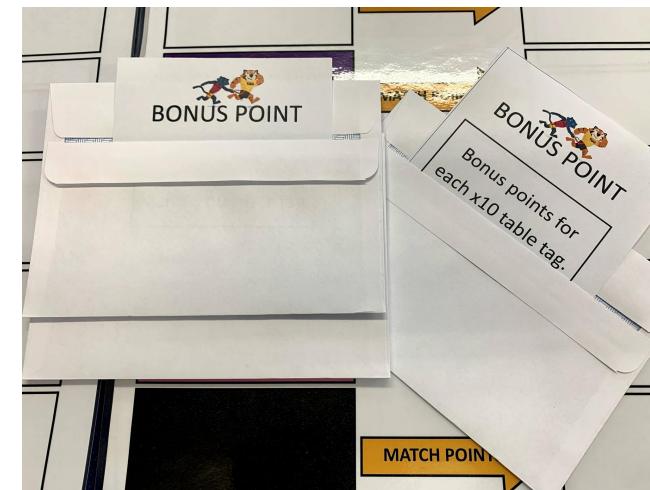

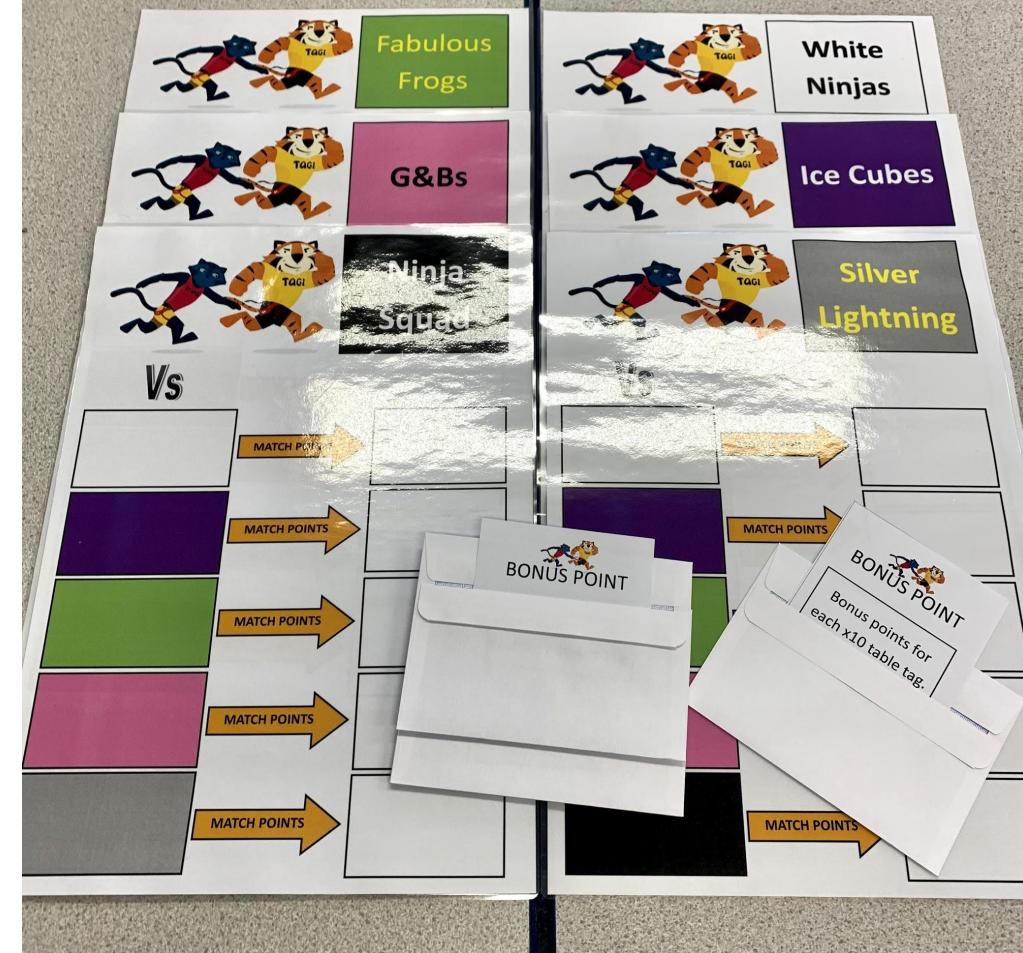

What do you notice about these numbers?

1st	Silver Team Imagination	4
1st	Black Team Courage	4
2nd	Purple Team Friendship	3
3rd	White Team Trustworthy	1
3rd	Pink Team Bravery	1
3rd	Green Team Loyalty	1

Hello

It's great to have you on board with our #moveandlearn approaches, whether it be in Mathematics and/or English - as well as other subjects.

Now we need to ensure sustainability - making sure that (y)our Move & Learn journey is embedded into school life. Moving & learning is not a gimmick - it needs to be considered as the heart of the curriculum, rather than a bolt-on.

Teacher energy and enthusiasm are both great, but what else can we do? One sure-fire way to ensure that Move & Learn approaches are used regularly is to promote them every day. A simple way to do this is to create a Tagtiv8 display board - ideally in the hall or on the corridor where **everybody** can see it.

Here are some 'Top Tips' from Tagtiv8 Teachers to develop & embed 'Move & Learn' approaches via display boards.

Display Boards

Promote Tagtiv8 as an opportunity for children to have fun and enjoy learning in a physically active way. Tagtiv8 games help children reach their daily 30/30 target for Moderate to Vigorous Physical Activity (MVPA) - recommended by the Chief Medical Officer for England and Wales.

Tagtiv8 always involves 4 Cs:

- **Collect** the tags
- **Connect** with each other
- **Communicate** ideas
- **Create** solutions

Remind your learners that Tagtiv8 sessions have **two** elements: a Physical Challenge and a Thinking Challenge.

Promote Tagtiv8 games as 'Warm Up', 'Main Game' or 'Cool Down' activities.

Making Learning Stick(y)

Taking learning beyond the classroom walls isn't a gimmick. Research demonstrates that our PAL approaches help make the learning memorable - and not just in terms of fun.

Learning in an active way helps transfer knowledge and information from the short term into the long terms memory.

Use images of children where appropriate - **smiles generate further smiles!**

Think of your questions and phrasing. Use the speech bubbles with Tagi & Tive asking the questions.

Photocopy the letter tags to then create keywords for your display - link them to your school ethos and core values.

Sustaining Momentum

Tagtiv8 League Tables

Getting Started

It's easy to promote cooperation and teamwork through Tagtiv8.

Likewise, you can help develop a friendly competitive edge. Use a 'League Table' or 'Leader Board' perhaps - rather like TT Rock Stars 'Battle of the Bands'.

Creating Teams

Put children into teams.
Ensure there is a mix of gender and abilities.

You could ask children to create their own:

- Team name
- Motto
- Badge
- Strip

Suggested Points Scheme

Create a fixture list - see slide 14.
Play each team - one match a week.
These could be via a series of games:

- 'Fill the Tub'
- 'Move Like'

Award:

- 3 points for a win
- 1 point for a draw

Award bonus points for tags grabbed or collected during the Physical Challenge:

- Over 10 tags (1)
- Over 20 tags (2)
- Over 30 tags (3)
- Creativity
- Teamwork
- Fair play

It is recommended that children award bonus points to opposition players who have made an impression on them in relation to the latter 3 bullet points.

Tagtiv8 Word bonus points for the Thinking Challenge:

- Each word
- Longest word

Tagtiv8 Maths bonus points for the Thinking Challenge:

- Each correct solution

Use 'Pop Up Bonus Points' in envelopes, which are chosen randomly, rather like 'Chance Cards' on Monopoly, e.g:

- 5 BP for team with most multiples of X
- 10 BP for team with most red/yellow tags

Updating the League Table

Update the league table on a regular basis.

Teacher Tips:

- Use dry wipe boards
- Give children responsibility to update the table

Can you create your own:

- Team name & Motto?
- Badge & Strip?

Create a fixture list.

Play each team - one match a week. These could be via a series of games:

- 'Fill the Tub'
- 'Move Like'

Award:

- 3 points a win
- 1 point a draw

Award bonus points for tags grabbed or collected during the Physical Challenge:

- Over 10 tags (1)
- Over 20 tags (2)
- Over 30 tags (3)

Can you award bonus points to opposition players for

- Creativity
- Teamwork
- Fair play

Can you award bonus points for great solutions in the Thinking Challenges?

Don't forget to update the league table on a regular basis.

Who will you be playing against in the next event?

How will you win fairly?

Enjoy moving & learning!

It doesn't happen
Just in a classroom...

Sharing with Others

We often get asked, "How often should you run a Tagtiv8 PAL session?" We suggest 1 session a week to get things moving.

Tagtiv8 is not a PE session - you need to keep your PE sessions separate. Think about Tagtiv8 as a way to activate your Mathematics and/or English and other subjects!

If possible, share what you are doing with others. Tweet your 'move and learn' sessions to @tagtiv8 with #Tagtiv8Tuesdays #Tagtiv8Thursdays perhaps?

Games Creation

We know that Tagtiv8 is a great resource but the greatest resource is YOU - the teachers and the learners!

Our best games are co-created by schools, organisations and individuals. That is why we credit each and every one of them.

Buzzing with Ideas

We know that you and your children will soon be buzzing with ideas of your own. You will want to create and develop your own games. Encourage your children to use our blank planning template to get their ideas moving.

Encourage creativity - e.g. How about using rolled up belts as decimal points? Can tags overlap? Can tags be turned upside down? Can you mash or blend Tagtiv8 with other Maths resources?

Can you link Tagtiv8 to BBC Supermovers and/or Premier League Primary Stars to promote Physically Active Learning (PAL) in its widest sense?

Support with Moving & Learning

Do you need any support introducing and embedding Tagtiv8 PAL with your teachers and children? Or maybe you would like to involve your parents and carers? We love working and playing with schools - we welcome opportunities to share ideas and research with schools via Activity Days and/or CPD. We want to empower all teachers with confidence and competence to deliver Tagtiv8 PAL sessions. Contact us to find out more.
